4/18/2018: Reminder – Changes to marine casualty reporting property damage thresholds now in effect

Posted by LT Amy Midgett, Wednesday, April 18, 2018

As a reminder, the amendments to the regulations in 46 CFR Part 4 for Marine Casualty Reporting Property Damage Thresholds published in the [Final Rule March 19, 2018](#), become effective today, April 18, 2018.

As a result:

- The property damage threshold for a marine casualty that requires immediate notice under 46 CFR 4.05-1 and the written report under 46 CFR 4.05-10 is now \$75,000.
- The property damage threshold for an incident to be classified as a serious marine incident (SMI) as defined in 46 CFR 4.03-2 is now \$200,000.
- In addition, technical amendments were made to update various references to the CG-2692 form and its appendixes throughout 46 CFR Part 4.

The [CG-2692](#), *Report of Marine Casualty, Commercial Diving Casualty, or OCS-Related Casualty*, and the [CG-2692B](#), *Report of Mandatory Chemical Testing Following a Serious Marine Incident Involving Vessels in Commercial Service* have both been revised to account for the amended marine casualty property damage thresholds.

The revised forms can be found on the Office of Investigations and Casualty Analysis's [website](#).
