The focus of the event was charterers' liabilities – highlighting the main risks and the insurance solutions that are available in the market.

The talk drew participants' attention to the fact that charterers have a very real exposure to claims which the charterers' liability cover is tailored to meet, even as those needs evolve.

Although losses are lower in frequency than owners' claims, they can be significant in value. The presentations examined the

main risks faced by charterers and the cover solutions available from the club, which remains committed to meeting the evolving needs of our charterer members. These are outlined in more detail in this special edition bulletin.

The presentations raised many relevant issues for all participants and sparked an engaging question and answer session, with conversations on the subject continuing over drinks during the reception that followed the seminar.
