

CIRCULAR

The Standard for
service and security

Standard
Club

TO ALL OWNERS AND MEMBERS

12 July 2017

Dear Sirs

BIMCO/ISCO Standard Spill Response Contracts, RESPONSECON and US RESPONSECON

Owners/members are informed that BIMCO and ISCO (the International Spill Control Organisation), have launched two standard contracts, RESPONSECON and US RESPONSECON, for the hire of specialised spill response services and equipment.

The contracts were drafted by a project subcommittee representing industry and chaired by a representative from the International Group. They conform to the International Group's Guidelines on Vessel Response Contracts.

RESPONSECON is tailored for international use, whereas US RESPONSECON is specifically for use in the United States. Terms and conditions are set out in standard clauses with accompanying annexes for the parties to insert detailed descriptions of the required services and rates for personnel and equipment. Both contracts are available free of charge from BIMCO's website, subject to Conditions of Use:

<https://www.bimco.org/contracts-and-clauses/idea/free-contracts/responsecon>

<https://www.bimco.org/contracts-and-clauses/idea/free-contracts/us-responsecon>

The contracts can be varied as required, however owners/members are advised to check with the club to ensure that any such variations do not cause the contract to fall outside the scope of the International Group Guidelines.
