In addition, the board of The Standard Club Ltd met in Rome on 27 May 2022 to review the group's consolidated financial statements, and the owners/members of The Standard Club Ltd, and its principal subsidiaries, including The Standard Club Asia Ltd met to consider resolutions relating to the proposed merger with North. This circular provides an update to owners/members and their brokers.

### Consolidated financial statements for the year ended 20 February 2022

The Report and Consolidated Financial Statements for the year to 20 February 2022 were approved by the board and will be published on the club's website shortly.

Despite continued high levels of International Group Pool claims from other clubs, and ongoing Covid-related claims, the club recorded an improved combined ratio for the financial year of 105%.

A challenging investment market, particularly in the last two months of the financial year, resulted in an investment loss of 1.2%.

After allowing for one-off project costs relating to the transition to in-house management, the club's free reserves at 20 February 2022 stood at \$310m, comfortably above regulatory requirements.

### Renewal 2022/23

The club delivered another strong renewal result and made further material progress towards its goal of breakeven underwriting in line with its business plan. Owner/member retention was very high and the club successfully attracted a greater amount of new business than in recent years, whilst maintaining a disciplined focus upon the quality of operation and pricing adequacy. Total tonnage grew to 158m GT at 20 February 2022.
